Summary

Software Engineer with a strong focus on **Full Stack Development, AI Automation, and DevOps**. Specialized in building scalable applications, automating complex business workflows, and managing advanced IT infrastructure using **Python, React/Angular, FastAPI**, and **Generative AI**. Trilingual professional (English, Portuguese, Spanish) with a solid background in secure systems and networking, validated by **Cisco and Google** certifications.

Experience

Full-Stack & DevOps Engineer

EsSalud (National Health Insurance)

Trujillo, Peru (On-site)

Mar 2026 – present

- Architected and deployed modern web applications using **FastAPI and Vue.js**, including a platform for automated certificate generation that drastically reduced user wait times.
- Managed advanced physical and virtual infrastructure, performing Bare-Metal assembly of Dell servers (RAID) and deploying highly available Linux/Windows environments via **VMware and Proxmox**.
- Developed custom desktop software and Python scripts to automate hardware integration, streamlining industrial label printing and asset tracking.
- Led corporate cloud migrations to Google Workspace, automated database backups, and secured network infrastructure implementing FortiClient VPNs.

Software Engineer & AI Specialist

Andean Anthracite ACE S.A.

Trujillo, Peru (Hybrid)

Dec 2025 – Mar 2026

- Architected an intelligent financial classifier using **Google Gemini API (LLM)**, achieving 95% semantic accuracy in automated expense categorization.
- Developed high-performance **RPA bots using Python and Selenium** for massive data extraction, reducing operational time by 80%.
- Implemented **Computer Vision (OCR)** algorithms for unattended real-time data validation and processing.
- Designed and integrated RESTful APIs to connect legacy financial systems with modern cloud infrastructure.

Full Stack Developer (React & Node.js)

Software Project (Freelance)

Remote

Aug 2025 – Nov 2025

- Developed responsive and user-centric web applications using **React and TypeScript**, focusing on performance and scalability.
- Built secure Backend services with **Node.js**, implementing JWT authentication and modular database structures.
- Utilized **AI-assisted coding (Gemini/Claude code)** to accelerate development cycles and ensure high code quality.

IT Automation Specialist

Clínica San Antonio

Trujillo, Peru

Apr 2025 – Aug 2025

- Automated the transmission of regulatory healthcare data frames (TEDEF/SUSALUD) and optimized clinical workflows using Python and the Lolcli9000 API.
- Administered mission-critical medical imaging infrastructure (RIS/PACS), executing automated backup strategies and successfully integrating radiological hardware (C-Arm systems) into the PACS network.
- Hardened network security and optimized traffic segmentation by configuring Fortinet firewalls, Windows Server environments, and Aruba switches with VLAN assignments.

Software Developer & IT Infrastructure Intern

EsSalud (National Health Insurance)

Trujillo, Peru

Aug 2023 – Dec 2023

- Developed a custom Python/PyQt desktop application to digitize asset management forms, packaging it as a standalone executable for seamless institutional distribution.

- Architected an internal web platform using Node.js to automate staff vacation tracking and streamline HR workflows.
- Administered network infrastructure by configuring a Squid proxy server on Ubuntu and deploying a private institutional cloud storage solution using Nextcloud.

Education

Universidad Nacional de Trujillo
Bachelor's Degree in Informatics / Systems Engineering

Trujillo, Peru
2019 – 2024

Certifications

Introduction to Generative AI (Google Cloud)

Google Cybersecurity Professional Certificate

Cisco Certified CyberOps Associate

Cisco Certified Network Associate (CCNA)

Skills

Technologies: Python (Advanced), JavaScript/TypeScript, React, Vue.js, Node.js, FastAPI, SQL, PostgreSQL

Cloud, DevOps & AI: Google Gemini API, Docker, VMware, Proxmox, Google Workspace, Selenium, Git

Languages: Spanish (Native), English (Advanced), Portuguese (Fluent)
